

"iAM Smart" Registration with Mobile Phone for Persons aged 11 to 17

This video will introduce the "iAM Smart" registration process using mobile phone for persons aged 11 to 17.

The graphics in this video (including screen contents) may have been enhanced with artistic effects or simplified for demonstration purposes. Please refer to the applications for the actual content.

Before registration, please make ready your Smart Identity Card or New Smart Identity Card, your smart phone, which is Internet accessible and with biometric authentication enabled, and your email address. Please make sure your parent or guardian has registered an "iAM Smart" account.

You have to be accompanied by your parent or guardian during the registration process.

Download the "iAM Smart" app and install on your smartphone.

Launch the "iAM Smart" App on your phone and your parent or guardian's phone.

The registration steps are as follows -

1. Obtain parent/guardian's consent:

Ask your parent or guardian to log in "iAM Smart" on his/her phone and scan the QR code displayed on your phone. Next, read the applicant's declaration with your parent or guardian. After reading the declaration, the parent or guardian has to agree to the terms in the parent or guardian's shown on his/her phone. Then, you have to agree to the terms in the applicant's declaration on your phone.

2. Scan applicant's identity card:

Scan your identity card from three different angles. First, scan the identity card from the front. Then, tilt the phone towards yourself and lastly, tilt the phone away from yourself.

3. Perform facial recognition:

Face the front camera of your smartphone and act following the instructions of the system, which may include blinking your eyes, opening your mouth and turning your head to the left or right.

4. Biometric verification:

Perform biometric verification with biometrics registered on your smartphone.

5. Set password:

Set your "iAM Smart" password and re-enter the password for confirmation.

6. Provide email address:

Enter your email address twice to complete the registration.

Registration has been completed.
